ADDENDUM # 1

August 21, 2019

Disaster Debris Removal and Disposal Services RFP

RFP Closing Date: Tuesday, September 10, 2019

Time: 2:00 PM

This addendum is issued to change or clarify the proposal documents associated with the Disaster Debris Removal and Disposal Services RFP, Issued August 5, 2019.

Note: A signed copy of this addendum must be submitted with your proposal response.

Q1. Can I get a past bid tabulation / current contract pricing for disaster debris removal and disposal services?

A1. We do not have past bid tabulations or current contract pricing as we have not previously held a contract for said services.

Q2. Is there any way we can get a copy of the previously awarded bid results on this RFP?

A2. We do not have past bid tabulations or current contract pricing as we have not previously held a contract for said services.

Q3. I have read the above mentioned RFP and have the following questions:

1. Pg. 2 asks for 1 original and 3 copies. Pg. 16 asks for 1 original and 5 copies.

a. Which is correct?

2. Please confirm that the subcontractor affidavit is required post award per page 7 of the RFP.

3. The list of minimum required information on pages 16-17 is listed under Tab 2, but a lot of the required information corresponds with information in other tabs.

a. Is this list to be included in Tab 2 or can the information be included where it is most applicable?

4. Pg. 17 asks for proposers to “provide a management plan for each category of work describing what actions will be taken for a disaster generating debris in the amount shown below.”

a. There are no categories of work shown below. Which categories is this referring to and where can they be located?

A3. Pg. 2 clarification – 1 original and 3 copies.

Pg. 7 clarification – subcontractors affidavit will not be required post award, however, a statement should be written that subcontractors are required to have affidavit completed prior to work beginning.

Tab 2 clarification – required information may be listed where most applicable in response.

Disregard below – no response required.

Pg. 17 asks for proposers to “provide a management plan for each category of work describing what actions will be taken for a disaster generating debris in the amount shown below.”

Q4. We are in the process of reviewing the RFP for Disaster Debris Removal Services and had a few questions regarding some of the language in the RFP.

Page 13 discusses f. Assist Debris Management Team in the following:

- Monitoring multiple contractors and multiple trucks delivering materials to the TDSRS....
- Verify that each truck that delivers to the TDSRS matches its manifest ticket...

Many of the items listed in this section are typical monitoring firm functions. Since the debris removal contractor cannot monitor themselves, would it be possible to remove these items.

Page 18 Tab 4 – Understanding of Project Requirements –

This section discusses eligible debris –

- 1) Examining debris to determine whether or not the debris is eligible vegetative, construction and demolition of other debris.

The debris removal firms are responsible for working with the monitoring firm OR the County, if you choose to self-monitor to remove and dispose of eligible debris. We would suggest that this section would be rewritten or edited to indicate if the County is going to use a monitoring firm/self-monitor.

A4. Page 13 – clarification – the county will self-monitor or emergency contract monitoring of debris removal services and vendor. County may request assistance with forms, tools and identification of subcontractors, etc. to effectively monitor the debris removal.

Page 14 – clarification – the county will self-monitor of emergency contract monitoring of debris removal services and vendor.
